

Confluo Frameless Line

Confluo shower drains by Peštan represent concept which is both technically and esthetically superior in “best buy” segment, concerning bathroom drainage. With more than 30 years of experience in plumbing, we have sublimed our knowledge in Confluo and made modular solution which satisfy all needs for bathroom projects worldwide.

Confluo Frameless Line is the newest model in Confluo brand, and it is characterized with modern “no frame” design of grid which gives this product unique and elegant look, especially when you use our 2 in 1 reversible grid system and insert ceramic. It is available in stainless steel, black and white glass and 24k gold plated finish with superior flow rate of 48 l/min, all with Anti-Leaking System – ALS and both water and dry siphon for bathrooms which are rarely used, and where the underfloor heating is installed.
