

## Confluo Premium Line

Confluo shower drains by Peštan represent concept which is both technically and esthetically superior in “best buy” segment, concerning bathroom drainage. With more than 30 years of experience in plumbing, we have sublimed our knowledge in Confluo and made modular solution which satisfy all needs for bathroom projects worldwide.

Confluo Premium Line is characterized with 2 in 1 reversable grid system which enables you to change your bathroom design on daily basis with stainless steel/ceramic or black & white glass/stainless steel finish and decorative mask that covers all plastic parts. Model has superior flow rate of 48 l/min and minimum installation height of only 52 mm, which makes our Confluo Premium Line the lowest drain in the world with DN 50 mm output and perfect model for most demanding renovation projects.
