PVC PIPES - 3P

Production program Pestan PVC pipes for home system sewage-3p pipes- represents the pipes made of supreme quality polivynil chloride PVC-U in diameters Ø32 do Ø160.

Also these pipes are produced in lenghts of 250mm, 500mm, 1000mm, 2000mm, 3000mm, 4000mm.

Pešťan PVC pipes are produced as three layered with inner white layer which is very smooth thanks to special technology and because of that the sedimenting on inner layers is decreased. White color makes easier inspections of pipeline.

It should be highlighted that using special technology these pipes manage to reduce noise level more than regular PVC pipes during the flow.

Next to the standard sizes Pestan produces also 3P pipe diameter 110 with an increased wall thickness (3.2mm) - PEŠTAN PREMIUM PIPE ULTRA

KG PIPE SDR51 SN2
