YOUR PERFECT FIT

IN BUDGET, IN LIMITED SPACE AND
MODERN BATHROOM DESIGN

Fluenta FIT is a concealed flushing cistern with a depth of only 80 mm. Due to the dimensions, it is suitable for fitting in the limited space, whether it is equipping a new bathroom or renovating the old one.

Fluenta FIT has a strong metal construction (complete frame), and a silent hydraulic valve with a recognized NF certificate is for the rinsing. With a great quality-price ratio, Fluenta FIT is affordable and it fits into a limited budget, with elegant and simple lines of the flushing plates fits perfectly in the modern-designed bathroom.

With one of the Ring and Block flushing plates in several colors, your bathroom will exude a dose of elegance and harmony.
